

SCOPE AND AVAILABLE SERVICES

Innovate provides mission-focused ITC/AV services via SEWP VI Category C. Representative capabilities include:

- Application development, modernization, operations, and maintenance
- Data engineering, data management, analytics, and visualization
- Geographic Information Systems (GIS) and geospatial solutions
- Digital government applications and workflow modernization
- Systems integration and application programming interfaces
- Cloud architecture, migration, hosting, and cloud operations
- IT architecture, engineering, and technical consulting
- Platform administration and operational support
- Training, adoption, and technical support
- IT program and project management

All services, LCATs, products, ODCs, and other offerings included in a formal SEWP quote must be properly available on the contract before the quote is submitted.

About SEWP VI

SEWP VI provides federal agencies and authorized contractors with a streamlined way to acquire a broad range of ITC/AV solutions and services:

Category A: ITC/AV Solutions

Category B: Enterprise-Wide ITC/AV Service Solutions

Category C: Mission-Based ITC/AV Service Solutions

Category C Order Thresholds

Reserved for small businesses. Order-level threshold restrictions, inclusive of options:

- 1st year: \$2M per order
- 2nd year: \$10M per order
- 3rd+ year: subject to removal

HOW TO ORDER INNOVATE'S SERVICES THROUGH SEWP

- 1 Identify the mission need and develop the information needed to support the acquisition:**
 - Scope or requirements document
 - Period and place of performance
 - Agency and program office
 - Required deliverables
 - Required skills or labor categories, if defined
 - Security/other agency-specific requirements
 - Funding and anticipated contract type
- 2 Conduct market research and request quotes**

Use the NASA-recommended [NASA SEWP Quote Request Tool](#) (QRT) to issue an RFI/MRR/RFQ to eligible Category C contractors.
- 3 Evaluate responses and select a contractor**

Evaluate responses using the criteria established for the procurement and follow the agency's applicable acquisition procedures / fair opportunity requirements.
- 4 Issue the order**

Issue the order against the selected contract holder. To award Innovate, cite Contract **80TECH26D0130** and route the order through the NASA SEWP PMO.
- 5 NASA processes the order**

The SEWP PMO reviews/processes the order and assigns a SEWP Control Number, after which Innovate can begin processing the order.

Contract Holder: Innovate! Inc. (Innovate)

SEWP VI Contract Number: 80TECH26D0130

Category C: Mission-Based ITC/AV Services

Period of Performance:

November 1, 2026 through October 31, 2036

Business Status: Small Business and SBA-certified Woman-Owned Small Business (WOSB)

Corporate Address:

6189 Cobbs Road, Alexandria, VA 22310

Website: <https://www.innovateteam.com/sewpvi>

Who May Use SEWP VI?

SEWP VI is available to federal agencies and authorized federal contractors who may/may not be part of NASA.

Customers who are uncertain about their eligibility to use SEWP VI can contact the **NASA SEWP Customer Help Desk** at: 301-286-1478 or help@sewp.nasa.gov

www.sewp.nasa.gov/sewpvi

Fair Opportunity. SEWP VI is a multiple-award contract. At the individual order level, eligible contract holders are provided fair opportunity to be considered as appropriate under Federal Acquisition Regulation (FAR) 16.505(b). The ordering agency determines how fair opportunity will be provided, based on the requirement and applicable acquisition rules. The agency also determines the appropriate Category, NAICS code, business size or set-aside designation, evaluation criteria, and other conditions of the request.

NASA recommends use of the [SEWP Quote Request Tool](#) to support market research and the competitive quote process. The QRT identifies eligible contract holders based on the criteria selected by the customer. **The issuing agency is responsible for maintaining the documentation supporting its acquisition and selection decisions.**

Installation, Warranty, and Technical Support. Installation, implementation, acceptance, maintenance, technical support, software support, service levels, and other post-delivery requirements will be defined in the quote and resulting order, as applicable. When ancillary commercial products or software are included, Innovate will identify any applicable basic or extended warranty, manufacturer or publisher support, licensing, maintenance, and related terms in the quote or order documentation.
