

OUR SERVICES

Geospatial Analysis and Data Services

We help our clients maximize their technology investments and deliver solutions that impact health, environment, science, sustainability, community, education, and research to affect positive change. We utilize geographic information system (GIS) technology to improve our clients' vision by organizing data, bringing clarity and better decision making.

From Macro analysis and reporting of weather, fire and natural disaster impacts on Government operations in the western United States, to Micro views of how students flow through a building on a University campus, Innovate is turning data into actionable information that makes lives better.

Our clients frequently seek out Innovate's expertise for difficult infrastructure mapping, licensing and permitting and other use cases where location is a major factor in decision making.

WHY CHOOSE US

THE MOST CERTIFIED ESRI CONSULTING FIRM IN THE WORLD AND 1 OF 13 WITH CLOUD READY SERVICES SPECIALTY

PROPRIETARY RE-USABLE ESRI COMPONENTS ACCELERATE DELIVERY OF SERVICES AND REDUCE RISK

REFERENCEABLE CLIENTS AND STRONG CPARS ACROSS 100+ PROGRAMS

HIGHLY CERTIFIED STAFF INCLUDING 1 OF 9 MEMBERS OF ESRI'S NATIONAL GOVERNMENT PARTNER EXECUTIVE WORKGROUP

WHAT WE DO

We transform organizations worldwide with mapping and spatial analytics technology tools that allow them to manage, analyze, and visualize data for a more complete understanding of humanity.

As demonstrated with our Esri Cloud Ready Services Specialty designation, our experts help organizations take advantage of financial and management benefits of transitioning software, applications, data and API's to the cloud.

WHO WE ARE

Incorporated in 2002, Innovate! is more than a consulting company; we are problem solvers. We bring strategic thinking and innovation to complex organizations with tough problems. Our expertise in geospatial technology, digital transformation, data analytics, cloud solutions, and business management delivers enhanced data access, lower operations and maintenance costs, and improve performance.

Our business is built on relationships nurtured over decades to establish trusted partnerships. We have renewal rates of over 90%, and create value over time through dedication to our clients' business success.

Innovate delivers state-of-the-art solutions to Federal, State, Tribal, local government clients, as well as the non-profit and private sector, higher education, and engineering sectors.

OUR AWARDS

130+ Professionals
19 GIS Certifications
17 Scrum Masters
3 Esri Certifications
2 AWS Certifications

7 Certified PMPs
2 GISPs
1 ArcGIS Certification
13 sUAS Drone Pilots
1 Solutions Architect

- 2022 Esri High Potential Award
- 2020 Esri Federal Small Business Specialty – Collaboration Partner Award
- 2018 Esri Federal Small Business Specialty – Innovation Partner Award
- 2015 CIO Review 20 Most Promising Public Sector Solution Providers

PROJECT HIGHLIGHTS

Arbor Day Foundation

Innovate designed and developed an interactive dashboard using ArcGIS Enterprise and Azure to visualize donor contribution data. Funding Partners can view transparent, real-time data about their sponsored projects, enabling them to see their impact (i.e., environmental offsets, number of trees planted, etc.). The dashboard demonstrates how the ADF is fulfilling its mission and lends credibility through accessible, visually compelling, and science informed stories.

The Earth Resource Observation and Science (EROS) Center encompasses one of the world's largest data archives of environmental and Earth imagery. Our Technical Support Services Contract (TSSC) is a broadly scoped on-site technical services contract. We conduct spatial and geospatial modeling using LiDAR and remotely sensed data.

Our first client, Innovate continues to provide core GIS capabilities for EPA Region 9 servicing Arizona, California, Hawaii, Nevada, the Pacific Islands, and 148 Tribal Nations. Our award winning Data Management Tool (DMT) enables EPA personnel to effectively manage more than 10,000 datasets and automatically harvests metadata for the enterprise geodatabases, and map service layers.

OUR CLIENTS

WORK WITH US

Certifications:

- WOSB, Virginia SWaM, WBENC, Virginia DBE
- ISO 9001:2015, ISO 20000-1:2018, and ISO 27001:2013 certified
- CMMI Level 3

Contract Vehicles:

- GSA Schedule IT 70 (GS-35F-0005T)
- NITAAC CIO-SP3 Small Business (75N98120D00123)
- NITAAC CIO-SP3 8(a) (75N98119D00022)
- U.S. Army Installation Geospatial Information & Services (IGI&S) BPA (W5J9CQ-20-A-0003)
