

Innovate!

ArcGIS Online Jumpstart

Innovate!, Inc. is proud to offer a comprehensive package to help your organization **configure, customize, launch, and maintain ArcGIS Online for Organizations.**

Innovate's experienced team will help your organization:

- Establish goals and vision for success
- Set up users and groups
- Organize content
- Make content discoverable
- Create/organize ArcGIS services
- Enable and configure Open Data
- Configure a customized homepage
- Set up apps including Story Maps
- Train GIS and non-GIS staff on all facets of ArcGIS Online

The Jumpstart package includes an **exclusive suite of Innovate widgets and applications**, which add functionality to your web maps and help you manage your map services.
